Economics: MINOR Requirements for Secondary Teacher Certification

These requirements are for MAC students entering the program in summer 2013 or later and for undergrad students entering the program in fall 2012 or later.

Major/minor requirements are subject to change. All candidates are expected to consult with a School of Education advisor as they plan and progress through their program. In addition, candidates are responsible for checking with departments about possible prerequisites/co-requisites for non-Education courses required by their major/minor.
